

# Summary of capabilities

## Bleiswijk, Netherlands

### Overview:

The Bleiswijk, Netherlands facility stands as the EU's only GMP Center of Excellence, offering a comprehensive range of cold and ultracold services tailored for high-value therapies, including cell and gene therapies, biologics, antibodies, and vaccines. Capabilities include ambient to cryogenic storage, clinical and commercial packaging, labeling, and distribution, and clinical QP release services. Situated conveniently close to air and sea ports, Bleiswijk serves as a strategic gateway to the thriving European market.

Opened:	May 2024	<ul style="list-style-type: none"> <li>• GMP storage at controlled ambient (15°C to 25°C), refrigerated (2°C to 8°C), frozen (-20°C to -80°C), and cryogenic (-150°C) temperatures</li> <li>• Cold chain logistics and specialty courier services</li> <li>• Secondary packaging and labeling in controlled environments, including ambient to cryogenic</li> <li>• Clinical and commercial packaging with serialization</li> <li>• Just-in-time packaging for clinical and commercial applications</li> <li>• Validation/qualification services</li> <li>• QP services (including ATMP)</li> <li>• Clinical ancillary management</li> <li>• Project management</li> </ul>
Audited:	Farmatec MIA License (109385 F) for Manufacturing (Secondary Packaging and Labelling) and Importation of Clinical & Commercial Products, QP Certification	
Facility size:	53,820 sq. ft. (5,000 sq. m.)	
Contact info:	Prismalaan Oost 13, Bleiswijk, Netherlands, 2665	

### Bishop's Stortford clinical storage and packaging capabilities:

Storage capacity	
Controlled ambient (15°C to 25°C)	2,000 sq. m. open warehouse space 2 vertical lift shuttle systems (40 pallet equivalent)
Refrigerated (2°C to 8°C)	25,427 cu. ft. (720 cu. m.) 2 vertical lift shuttle systems (40 pallet equivalent)
Frozen (-20°C)	25,427 cu. ft. (720 cu. m.) (20 pallet equivalent)
Ultra-frozen (-80°C)	48 upright reach-in freezers (expansion available to 284 units)
Cryogenic (-150°C)	10 storage systems (expansion available to 78 LN2 storage systems)

Capabilities/services	
7 packaging suites (includes refrigerated and frozen suites)	Multi-language, patient-specific secondary labeling
Clinical ancillaries sourcing	✓
Returns/destruction	✓
Logistics services	Transportation arrangement, provisions of qualified shippers, import/export support

# From molecule to medicine

## An integrated partner for every step in your drug development journey

Thermo Fisher Scientific provides industry-leading pharma services for drug development, clinical trial logistics, and commercial manufacturing through our Patheon™ brand. We partner with customers in the pharmaceutical, biotech, and life sciences industries as their trusted CDMO to deliver medicine to patients faster. With more than 60 facilities around the world, we provide end-to-end pharma services across all phases of development and commercial manufacturing, including API, oral solid dose, biologics, cell therapy, mRNA, viral vectors, formulation, clinical trial solutions, logistics services, and packaging. We couple our scientific and technical excellence in these areas with a strategic partnership to provide customers of all sizes access to a global network of facilities and dedicated experts across the Americas, Europe, Asia, and Australia. Through our integrated service offerings, we provide tailored solutions to fit your unique drug development journey, accelerating your time to market.
