

Year Awarded	Award Type	Award Name	Grantor	Award Description
2011	Environmental Sustainability	Recycling at Work Award	Hamilton County Solid Waste and Recycling District	Recognition for implementation of “OneRecycle – It Begins With You!” a successful, comprehensive single-stream recycling program to make recycling and waste reduction options available to all employees.
2012 2014 2015 2016	Environmental Sustainability	Pollution Prevention Intern Grant Awards	US EPA, Hamilton County, Butler County, Montgomery County Solid Waste and Recycling Districts, TechSolve	Grant award of a 12 week internship for upper-level college students. The grant funds 75% of the internship pay and provides pollution prevention and business professional training as well as mentoring and networking opportunities. The internship provides innovative sustainability ideas, give students an edge in obtaining full-time employment after graduation, and creates and keep technically skilled jobs in Ohio. One Intern was a Patheon FT Hire as Engineer and has had several Supervisory Roles. Other Interns returned as Patheon Engr. Co-ops in subsequent years.
2013	Environmental Sustainability	State of Ohio Earth Day Tour	Ohio EPA Hamilton County Solid Waste and Recycling District	CRO hosted a facility tour as requested by Ohio EPA and in recognition of the site’s recycle, compost, reuse and waste reduction landfill diversion initiatives. State and County Leaders attending were: <ul style="list-style-type: none"> • Mr. Scott Nally, Director, Ohio EPA • Ms. Terrie TerMeer, Assistant Chief, Division of Materials and Waste Management, Ohio EPA • Mr. Chet Chaney, Grants Administrator, Ohio EPA • Ms. Holly Christmann, Director, Hamilton County Department of Environmental Services • Ms. Catherine Walsh, Business Outreach Coordinator, Hamilton County Recycling and Solid Waste District
2013	EHS	CRO – Best Overall Site Performance	Patheon CEO Jim Mullen	CEO Award for EHS Global KPI Metric top overall indicator score of site safety culture for the 2013 fiscal year
2013 2014 2015	Health	Fit-Friendly Worksite Gold Achievement	American Heart Association	Health & Wellness initiative managed by site Occupational Health Dept. Gold-level employers offer employees physical activity options in the workplace, increase healthy eating options at the worksite and promote a wellness culture in the workplace. The Fit-Friendly Worksites program is a catalyst for positive change in the American workforce by helping worksites make their employees’ health and wellness a priority.
2014	Environmental Sustainability	ME3 – (Materials, Economy, Energy, Environment) Grant Award	US EPA, MORPC, State of Ohio, TechSolve, University of Dayton	Grand Award to facilitate manufacturing company exploration of initiatives to simultaneously reduce operating costs, improve productivity, and lower environmental footprint. The ME3 grant provided a comprehensive, on-site operational assessment, cost-effective improvement evaluations, follow-up to assist with implementation, and access to financial incentives.
2015	Environmental Sustainability	Cincinnati Business Courier Green Business Award Finalist	Cincinnati Business Courier	Recognition of site environmental sustainability program and EHS Culture achievements. Patheon’s environmental sustainability KPI goals support the Global EHS Policy and Environmental Sustainability Commitment for resource conservation, and the OnePatheon strategy for cost savings, competitive advantage, and exceeding client expectations.
2016	Environmental Sustainability	Innovation in Waste Reduction Award	Hamilton County Solid Waste and Recycling District	Recognition for landfill diversion projects implemented by the EHS Team and P2 Interns to increase landfill diversion from a facility with a large employee base with a goal of achieving Zero Landfill. Reducing landfill disposal of wastes decreases green house gas (GHGs) emissions, improves climate change impacts and lessens corporate liability. These actions also impact the region as a whole by freeing up diminishing landfill capacity for residences and small businesses who do not have sufficient resources to implement landfill diversion. Patheon is recognized as a “Good Corporate Steward” as shown by our focus to evaluate new technologies and innovative programs for site landfill diversion applicability.
